Junior Software Developer - Remote  
Vetro Tech Inc - Houston, TX

Dear Hiring Manager:

Thank you for the opportunity to apply for the Software Engineer role at your company. After reviewing your job description, it's clear that you're looking for a candidate that is extremely familiar with the responsibilities associated with the role, and can perform them confidently. Given these requirements, I am certain that I have the necessary skills to successfully do the job adeptly and perform above expectations.

I am a dedicated college student (Full-Stack Software Engineer) currently attending Thinkful. During the course of my academic career, I also managed to accrue nearly 8 years of work experience. I had the privilege of working as a Freelancer as a web designer & graphics designer in my free time, where I learned valuable professional skills such as front end web design, web platform development and graphics design. In both my academic and professional life, I have been consistently praised as hard-working by my instructors, mentors, and peers. Whether working on academic, extracurricular, or professional projects, I apply proven leadership, creative thinking and problem-solving skills, which I hope to leverage into the Software Engineer role at your company.

After reviewing my resume, I hope you will agree that I am the type of competent and competitive candidate you are looking for. I look forward to elaborating on how my specific skills and abilities will benefit your organization. Please contact me at (423) 838-3582 or via email at shawn@engineerpatterson.com to arrange for a convenient meeting time.

Thank you for your consideration, and I look forward to hearing from you soon.

Sincerely,

Shawn Patterson
